

Career Ready

Where the **community** becomes the classroom

Our Career Ready programs offer the advantages of education and experience — and those advantages can mean the difference between just getting a job and launching a successful career.

Through our partnerships with various local businesses you'll apply your classroom knowledge on the job, working with and learning from industry professionals.

If you're currently in high school, a recent graduate or even an adult learner, this program could be an important step towards a rewarding career that will last you a lifetime.

For more information contact your school counsellor or any of our high schools.

refrigeration & air conditioning

SEVEN OAKS
SCHOOL DIVISION
community begins here

you can do it

The Refrigeration & Air Conditioning program is open to anyone who meets the requirements:

- Interest in working in refrigeration and air conditioning
- Completion of grade 11 core courses (done in semester one of grade 11 year)
- Completion of a Career Ready application form
- Presentation of a certified transcript of marks, cover letter, reference letter, resume and fee if applicable
- Participation in an orientation
- Math 30S and/or 40S mark of 70% is recommended (physics and/or applied math/pre-cal)
- English 30S and/or 40S mark of 70% is recommended

Individuals who have completed Grade 12, are an adult learner or reside outside the division are encouraged to submit an application. A registration fee may apply depending if you are a graduate or live out of Seven Oaks School Division catchment.

all in a day's work

You will spend time in the classroom attaining skills and learning theory needed to get started.

Under the guidance of your instructor and experienced workers in the industry you will demonstrate skills such as:

- Performing a system inspection
- Performing basic maintenance and service
- Completing repairs and servicing
- Completing preventative maintenance procedures
- Performing maintenance related to seasonal concerns
- Understanding and using theory applied to operating systems
- Communicating and working with peers, employers and customers
- Thinking logically and making decisions
- Working independently or as part of a team
- The ability for life-long learning to enhance their time management skills
- Mechanical aptitude and manual dexterity
- Problem-solving

hit the ground running

If you like to work with your mind and your hands and have an interest in being a Refrigeration & Air Conditioning Technician, then we can help you gain the skills and experience you need for a rewarding career in this industry.

Upon completion of this program, you will earn a minimum of eight high school credits.

Our Career Ready programs maintain an excellent record of helping students gain full-time employment upon completion of the programs.

Don't miss this exciting opportunity – apply now!

refrigeration & air conditioning technician

Refrigeration & Air Conditioning Technician introduces you to a variety of career opportunities.

A student graduating from the Refrigeration and Air Conditioning Technician program can seek entry level employment as an apprentice technician in any of these trades from Apprenticeship Manitoba:

- Residential Refrigeration and Air Conditioning Technician
- Commercial Refrigeration and Air Conditioning Technician
- Industrial Refrigeration and Air Conditioning Technician

Graduates can also seek employment in the following areas:

- Maintenance work
- Parts advisor
- Parts & warehousing sales & distribution
- Specialty/after-market technician
- Sales consultant
- Tools & equipment representative
- Appliance repair & services

We provide a combination of technical training and real world experience so that potential employers need not worry about your knowledge of the industry – you will come to them prepared to work. Employment opportunities are many, varied and financially rewarding.

Seven Oaks School Division will offer this program in partnership with PITC. The program will be taught in a state of the art facility.
