and get your
vaccination.**

*For our Seven
Oaks Community.
For our Seven
Oaks Families.*

Why should you get a COVID vaccine?

SOSD has had some of the highest COVID transmission rates and we need to get them down.

COVID is NOT the flu; it is more contagious and 25x more deadly

Vaccines are tested, safe and effective at reducing the symptoms and transmission of COVID.

There are no vitamins that prevent COVID and even if you had the virus once, you can get it – and spread it again.

That's why getting vaccinated is so important – it's the one thing that IS effective against the virus.

Stop the Spread in SOSD.
