

April 30, 2020

Dear Margaret Park Families,

The following information has been provided to us by Green Action Centre:

Green Action Centre has adapted our annual Bike to School Month for Manitoba schools into "Bike Everywhere Month". The focus is getting families out riding in their communities, which are seeing record low levels of vehicle traffic.

Teachers and families [can register here](#) for their free activity kit and chance to win prizes. Please share this info with teachers you think would be interested, particularly phys ed teachers. I'm happy to answer any questions.

Our first activity, "Street Re:Design", is already available for download, with more on the way!
