

## Outdoor PE Scavenger Hunt

Directions: First find what you are looking for. Next, you will complete that task. For example, “find something to jump over” that could be a stick on the ground. After you’ve found it, you would run and jump over it. Once you complete the task, you can mark it off and keep going. If you can’t print out these directions, use a blank piece of paper to keep track of your progress.

### Find & Do the Activities Below
