

Rory Brett

My teaching experiences have taken me from Winnipeg classrooms to overseas schools and back to Winnipeg again. I am very comfortable in diverse classroom settings and love the connections I am able to make with students, parents and staff.

In addition to my teaching experience, I am well-travelled, and I consider myself a global citizen. I have travelled extensively throughout North America, Asia, Europe, Africa, and Oceania. This has brought me in contact with many different cultures, languages, and placed me in situations where English was rare to non-existent. I have a profound respect and interest in different cultures and this comes across in my classroom.

I believe that a teacher in today's world is not simply an educator. Teachers are talent scouts that coach, assist, and encourage their students to reach their potential and achieve their goals. This is why I love being an advisor at Met School.
