From Room 6

This year in Grade 5, room 6, we learned a lot of things that helped us gather more knowledge. We love that we are the oldest in the school. We are sad that it is our last year at Victory.

Some of the things we learned in French were numbers, colours, basic greetings, simple sentences, days of the week and months.

In Math, we learned about place value and multiplication. In multiplication, we learned how to multiply two-digit times two-digit, and a little bit of two-digit times three digits. We also do word problems, weekly.

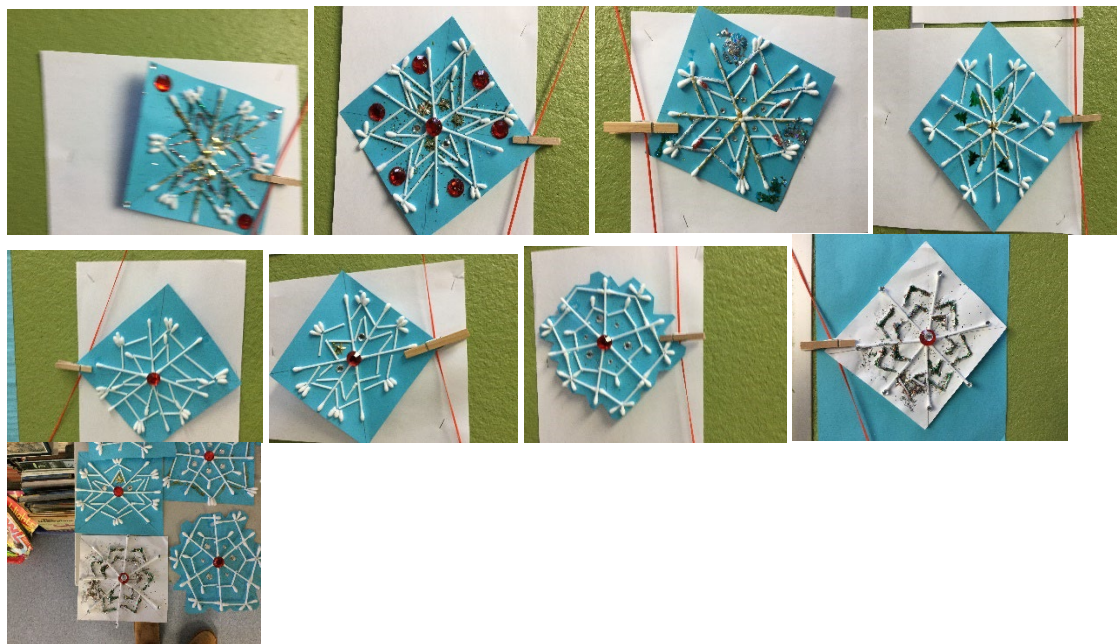

In Social Studies, we learned about the Ice Ages and the First Peoples of Canada. We researched and made 3D models, of our First Peoples communities.

For Science, we created our own simple machines. It was so much fun. We are now learning about the human body.

In Language Arts, we did something called 'Teaching Projects'. We were able to research anything we wanted. Then we put our information onto Power Points. We presented them to the class. We also do Spelling and Word work, weekly. We read daily, so we could improve on our reading skills. We love Writer's Workshop. We get to use our creative side and write about anything we want! TUSC is something new this year. It teaches us how to speak in front of our class. We get different jobs. It is scary, but fun at the same time.

Some of the things we made in Art were dream catchers, 'I Am' Poems, Snowflakes, Christmas wreaths, stone art and masks.

SNOW FLAKES:

I AM Poems

Leadership Club started in January. Our jobs are important. We help our school and community with a variety of things.

Some of us are patrols. We go outside before or after school. We make sure that everyone is safe. Our hard work allowed us to go on a corn maze. We also get hot chocolate on very cold days.

Many of us joined Music clubs; CBC, Tap Club, Hip Hop Club, and Recorder Club.

We were also able to join many gym activities like: Flag Football, Cross Country and Volleyball.

Grade 5 is very busy in room 6, but it is very fun too!
